Mobile No.   +34 663 067 430

Barcelona, Spain

/ ABOUT ME

I'm a fresh Front-end developer taking his first steps into the Back-end side of life and on my way to becoming a full-MERN-stack developer.
I am always enthusiastic about new programming challenges and getting the chance to learn a new skill.
I have a degree in Architecture and a strong interest in UX, design, and computer science. I started programming in HTML, CSS, and Javascript and learned SASS, Bootstrap, Bulma, EJS, WordPress, React, Jest, Node.js, Express, Firebase, and MongoDB along the way.

/ LANGUAGES

Spanish
English
